

Residential Curbside Collection Notice

Help prevent the spread of COVID-19 and protect our waste collection staff

April 6, 2020 – Currently, garbage and recycling collection is continuing on its regular schedule. To further protect TteS frontline employees who are working hard to keep TteS's essential services operating, the public is asked to follow these guidelines for curbside collection.

Garbage Collection

1. Set out bins only when full
2. Wipe down the handles of your collection carts
3. Do not dispose of wipes or cleaning cloths down the toilet, sink or drain, including those labelled "compostable" or "flushable" as they will clog the sewer system
4. Put all personal waste (e.g., used tissues, cleaning cloths, face masks, gloves, sanitary wipes, paper towels, napkins) in plastic bags, tie securely and place in the garbage bin (do not put these items in with recycling)
5. If you are sick or caring for a sick person, double-bag all personal waste in plastic bags and tie securely before placing in the garbage
6. Unbagged or loose items in the garbage bin may result in your bin not being emptied
7. Residents are asked to avoid leaving large items or furniture at the side of the road for collection by TteS workers, and instead dispose of at a later time. Or drop-off at their local waste disposal facility directly, only when absolutely necessary

Recycling Collection

1. Residents must deposit all recyclables in "transparent" recycling garbage bags. As per TteS Solid Waste Bylaw # 2019-04
